

ROUND HEADS NEW CRANIAL STYLE FOR LONDONERS

Scientists Find Incursion of Middle Europeans Is Changing British Skulls.

LONDON, April 7. CITIZENS of London are growing round-headed, according to anthropologists, who say this change is due to the incursion of peoples from Middle Europe.

It is said this tendency toward globular formation of the cranium has amounted to 2 per cent. within the last 200 years.

"The old British inhabitants were long-headed and they have been supreme in initiative, governing capacity and colonizing genius," says a commentator. "The

round-heads are lacking in initiative, but they have a great capacity for patient labor."

REMARRY AFTER 18 YEARS.

Couple Happily Reunited in Old Folks' Home in Bronx.

Samuel Cantor, seventy-eight, and his wife, Yetta, sixty-eight, separated for eighteen years, during which time neither knew of the other's whereabouts, have been happily reunited and re-married at the Home of the Daughters of Jacob in the Bronx.

The couple separated following disagreements over religious matters. Months ago Mrs. Cantor applied for admittance as an inmate to the home and was accepted. Recently her husband also became an inmate. Superintendent Kruger, who had heard the wife's story, broke the news to Cantor that she was in the home; a happy reunion followed and Rabbi Wolf Margolis of the United Hebrew Community performed the re-marriage ceremony.

CATHOLIC CHARITY RALLY.

Archbishop Hayes to Speak at Opening in Staten Island.

Archbishop Patrick J. Hayes of New York will make an address on Staten Island this evening at St. Peter's Hall, Richmond Terrace, New Brighton, at the formal opening of the Catholic Charities Regional Rally for the Renewal and Extension Week, April 24 to 30. During that week every Roman Catholic in the archdiocese of New York will be asked to renew and if possible to enlarge the pledge of financial support which he made in 1920.

Mgr. Charles A. Cassidy, rector of St.

Electric Refrigerator Show

So great has been the interest of the public in automatic refrigeration that arrangements have been made to exhibit a number of smaller units in actual operation during the present week at the Irving Place Showroom of this Company

Automatic Electric Refrigerators are now available in convenient sizes and of satisfactory design and construction for every cooling purpose. The operating cost in the smaller sizes approximates 15 cents for a cooling effect equivalent to one hundred pounds—about \$3 a ton—of melting ice. In larger sizes the average cost is less. This method gives a uniformity of temperature, convenience and sanitation to be obtained in no other way

Refrigerating boxes and machines will be shown for homes, apartments, hotels, restaurants, grocery and delicatessen stores, meat, fish, fruit and vegetable markets, dairies, confectioners, ice cream manufacturers and florists

Everyone is invited. There is no charge for admission

The Blyn Shoe

Further Expansion of the Big Blyn Stores

For the convenience of our increasing Downtown clientele, we have opened a retail store at our new General Headquarters and Distributing Bldg., 55 Warren Street. This marks another milestone on the road of progress for the Big Blyn Stores. It means too, still better values and still greater advantages for every patron of every individual Blyn Store. The strain of operating expenses borne collectively is lessened proportionally for each individual shop—and it follows naturally that the added economy, as is our custom, will be converted into service and saving for the customers of all Blyn Stores.
